Main contact person (if different from principal) \_\_\_\_\_

Main contact's email \_\_\_\_\_

Principal's signature \_\_\_\_\_

Principal's name \_\_\_\_\_

Principal's email \_\_\_\_\_

Date \_\_\_\_\_

### Terms and Conditions of Service

- **In 2020 schools will be charged a fixed cost per Semester per student registered on Brightpath.** No charge applies to Pre-primary or Kindergarten students. Unless Brightpath is advised differently, schools will be re-invoiced at the start of each subsequent Academic year.
- The licence grants unlimited access to the Brightpath software package. During the period of licence, schools are at liberty to use the scales related to *any* learning areas and may implement *as many* assessment tasks as they wish. (There are pedagogical considerations in determining the frequency of implementing the assessments.)
- Students added to the site during the year are charged at the full-semester's fixed cost (there is no pro-rata provision for additional students, and no refund for students who are removed part way through the year).
- The power of 'whole school' data is greatly enhanced if the entire school works with Brightpath. It should be noted that if you subscribe to the Advanced Package, it will be applied to all students at your school who are currently registered in Brightpath software.
- In adopting its pricing policy, Brightpath has made every effort to make this educational turning point available to as many schools and students as possible.
- Invoices will be issued to the School. Payment terms are strictly 14 days.
